

20 dB Fixed Attenuator, N Male To 7/16 DIN Female  
Directional Black Anodized Aluminum Heatsink  
Body Rated To 50 Watts Up To 7.5 GHz

## PE7314-20

### Features

### Applications

### Description

Pasternack carries a wide range of fixed attenuators with a broad selection of attenuation levels, frequency ranges, and power dissipation ranges. RF microwave attenuators (also known as RF pads) lower the amplitude of a signal (attenuate) a known amount and can be used in a wide variety of applications. These attenuator pads are used when a signal needs to be reduced to protect measurement equipment or other circuitry, to extend the range of power meters and amplifiers, and to impedance match circuits by reducing the VSWR seen by adjacent components. RF attenuators can prevent signal overload in amplifiers, receivers and detectors, adjusting the signal level to a range that is optimal.

Few RF components are as commonly used as fixed coaxial attenuators, and Pasternack carries one of the largest in-stock varieties and ships them same day. The 20 dB Fixed Attenuator PE7314-20 is rated to 50 Watts and operates from DC to 7.5 GHz. The versatile coaxial package uses type N male to 7/16 DIN female connectors and is also REACH and RoHS compliant. The Black Anodized Aluminum Heatsink body allows for efficient heat dissipation under high power usage conditions.

### Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		7.5	GHz
Impedance		50		Ohms
Nominal Attenuation		20		dB
VSWR			1.45:1	
Input Power, CW			50	Watts
Input Power, Peak			500	Watts

### Specifications by Frequency

Description	F1	F2	F3	F4	F5	Units
Frequency Range	DC to 6	6 to 7.5				GHz
VSWR, Max	1.3:1	1.45:1				
Attenuation Accuracy, Typ	0.75	0.75				dB

### Mechanical Specifications

#### Size

Length	4.01 in [101.85 mm]
Width/Diameter	3 in [76.2 mm]
Height	3 in [76.2 mm]
Weight	1.796 lbs [814.65 g]
Body Material and Plating	Black Anodized Aluminum Heatsink

#### Configuration

Design	Fixed, Directional
--------	--------------------

20 dB Fixed Attenuator, N Male To 7/16 DIN Female  
Directional Black Anodized Aluminum Heatsink  
Body Rated To 50 Watts Up To 7.5 GHz

## PE7314-20

### Connectors

Description	Connector 1	Connector 2
Type	N Male	7/16 DIN Female
Contact Material and Plating	Brass, Gold	Brass, Silver
Outer Conductor Material and Plating		Brass, Silver
Hex Size	11/16 In.	11/16 In.
Body Material and Plating	Stainless Steel, Passivated	Brass, Silver

### Environmental Specifications

#### Temperature

Operating Range -55 to +125 deg C

**Compliance Certifications** (see [product page](#) for current document)

### Plotted and Other Data

Notes:

### Typical Performance Data

20 dB Fixed Attenuator, N Male To 7/16 DIN Female Directional Black Anodized Aluminum Heatsink Body Rated To 50 Watts Up To 7.5 GHz from Pasternack Enterprises has same day shipment for domestic and International orders. Our RF, microwave and millimeter wave products maintain a 99.4% availability and are part of the broadest selection in the industry.
