

## SSMB Jack to BNC Male Adapter

## RF Adapters Technical Data Sheet

PE9392

#### Configuration

- SSMB Jack Connector 1
- BNC Male Connector 2

- 50 Ohms
- Straight Body Geometry

### **Features**

- SSMB Interface compliant with MIL-STD-348
- BNC Interface compliant with MIL-STD-348
- Gold Plated Contact
- Contact Plating per MIL-G-45204

## **Applications**

Allows Connection Between Series

General Purpose Test

#### **Description**

Pasternack's PE9392 SSMB jack to BNC male adapter is part of our full line of RF components available for same-day shipping. Our SSMB to BNC adapter has a jack to male gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

#### **Mechanical Specifications**

Size

 Length
 1.135 in [28.83 mm]
